## 1. Jacqueline and the Beanstalk

Girls are so often stereotyped, but Jacqueline will climb to great lengths to prove them all wrong! Once upon a time, Jacqueline had a brother named Jack. The entire village thought Jack was so smart, strong and witty, but when they ran out of money it was Jacqueline who used her brain to get them out of trouble. Follow Jackie up the beanstalk as she shatters stigma to discover it wasn't because she is less capable, but because she was made to believe so. Now, she has the chance to prove her worth. Whether you are young or old, this fun and interactive one-woman show is important for everyone to see. Not because it's unique, but because it's not. It is the story of many girls.
